Basic Brilliance

Stryker AHTO™ Irrigation System

The AHTO Irrigation Pump is a streamlined irrigation product that is hassle free and extremely reliable for any general surgical case requiring irrigation. This cordless irrigation console is small, lightweight and extremely intuitive. Interactive flow rate and battery level displays establish a user friendly interface with the surgical staff that equates to efficient setup and turnover of the operating room. The simplicity and functionality of the tube set further exemplifies how beneficial this product is to the surgeon, the patient and the surgical staff.
